Life After Study Abroad Conference — Mark your Calendar!

Saturday, October 22, 2011 from 12:30-6:30 pm
CUAbroad highly recommends this re-entry conference. Students meet peers in the DC area who studied abroad in a similar region. There are opportunities to share and reflect on the study abroad experience as well as the return to life in the United States. Participants explore different options available after graduation with professionals and practitioners. Panel topics include international careers and working as a teacher, volunteer, intern, or researcher abroad. Career service professionals offer free, one-on-one résumé critiques. Visit the LASA website for more information.
