SPRING SEMESTER COURSE REGISTRATION
Course registration for the spring semester is quickly approaching. Your registration appointment depends on the number of credits you have completed. Please verify your registration appointment by logging-in to cardinalstation.cua.edu. You should also maintain contact with your academic advisor so that you can register for the necessary classes in your major or minor.

SPRING SEMESTER CAMPUS HOUSING
While the University only requires freshmen and sophomores to live on campus, juniors and seniors are encouraged to apply for campus housing as there is foreseen availability for the Spring 2012 semester. In addition, Housing Services offers guidance to students seeking near-campus and off-campus housing options.

In order to indicate your interest in campus housing, please download and complete the Residence Hall and Dining Services Application. Once you have completed this information, please print, sign, and return the application form by postal mail, email to cua-housing@cua.edu, or fax to 202-319-6262. The priority deadline for the spring application is November 15, 2011; late applications will be processed as they are received, but it may be more difficult to meet preferences after the priority deadline. You will be notified via email by mid-December regarding your housing assignment. Please visit http://housing.cua.edu or e-mail cua-housing@cua.edu for more information.

LIFE AFTER STUDY ABROAD CONFERENCE
On Saturday, October 22 several CUA students who have recently returned from studying abroad attended the Life After Study Abroad Conference. Co-sponsored by CUA, the conference was held at George Washington University and featured a social event at the Embassy of Spain. Students had the opportunity to attend several panels concerned with making meaning from study abroad experiences. The panels also featured representatives from international volunteer organizations and ideas for pursuing global careers.

INTERNATIONAL TEACHING OPPORTUNITIES
Are you enjoying your time abroad and looking for other opportunities to live and work internationally? Many countries, including France, Spain & Japan, offer English teaching assistantship programs to young Americans interested in living and working foreign countries. These programs usually include monthly stipends for living expenses. For more information on these opportunities and the application deadlines, please visit http://cuabroad.cua.edu/financial/teachabroad.cfm

Where in the World?
There are currently 45 CUA students studying abroad in 9 countries.

Next semester 108 students will study in more than 12 countries including:

Argentina, Australia, Austria, Belgium, China, Ecuador, France, Ireland, Italy, South Africa, Spain, & The United Kingdom
